EDUCATION

Institute of Engineering & Technology, DAVV | Indore, MP

October 2022 - Present

- Bachelor of Engineering in Computer Engineering | **GPA: 9.04**
- Relevant Coursework: Data Structures & Algorithms, Operating System, Database Management, Computer Programming (C++, Java), Object Oriented Programming, Software Engineering, Web Technologies

Mount Litera Zee School | Indore, MP

2020 - 2021

- Higher Secondary Education | CBSE | Class XII : **95%**

Mount Litera Zee School | Indore, MP

2018 - 2019

- Secondary Education | CBSE | Class X : **90%**

TECHNICAL PROJECTS

Catalyst | AI-Powered Developer Productivity Suite ([Github](#) • [Live](#)) | Next.js, Gemini , GitHub API, Langchain, RAG

- Built an integrated productivity platform to empower developers through AI-driven tools for learning, code comprehension, and project insights.
- **GitWhiz** offers deep GitHub repository analytics, AI-powered commit summaries — along with interactive features to ask questions about your codebase and generate tutorials from repositories.
- **Quizzzy** delivers intelligent, AI-generated quizzes to assess knowledge, reinforce concepts, and support technical interview preparation.

Sync-City | HackByte 3.0 Finalist Project ([Github](#) • [Devfolio](#)) | Next.js, Convex, Diagflow cx, Google Vertex Ai

- Built a centralized collaboration platform for government departments to prevent resource wastage and project conflicts via real-time coordination, AI-powered conflict detection, and geospatial awareness.
- Developed custom SOPs for proactive conflict resolution based on resource overlap, department priorities, and spatial proximity.

Huddle | Personal Project ([Github](#) • [Live](#)) | Next.js, Prisma, Clerk, Socket.IO, LiveKit, Zustand, PostgreSQL

- Engineered a production-ready, real-time communication platform with support for servers, channels, and 1:1 direct messaging via Socket.IO.
- Implemented advanced chat features including message editing, soft deletion, file uploads, and role-based access control (RBAC) for Admin, Moderator, and Guest roles.
- Integrated LiveKit for secure WebRTC-based video/audio calls using token authentication, and optimized state and data flows using Zustand and React Query.

SKILLS

Programming Languages: Java, SQL, JavaScript, C++, TypeScript

Frameworks & Libraries: React.js, Next.js , Express.js, Node.js, Langchain, TailwindCss, shadcn, DaisyUI, leaflet.js

Tools and Platforms: GIT, MongoDB, Postman, Prisma, Clerk, Convex

Operating System: Windows, Linux

ACHIEVEMENTS

Top 10 Finalist – HackByte 3.0, IIITDM Jabalpur ([Certificate](#))

Selected among 120+ teams for developing an impactful AI-powered collaboration platform for government departments.

CERTIFICATIONS

Postman API Fundamentals Student Expert ([Certificate](#))

Networking Basics Badge ([Issued by Cisco](#))
